Profile

After being graduated from university in IT field, I started to work in a firm as a full-stack-developer in 2014. After 4 years I been accepted to work in telecommunication office as ,again, full-stack-developer about national telephone system. I work there until now. I have been programming for about 13 years and I have 13 years work insurance. I graduated from Iran language institute for English language ,too. I studied until advanced levels and I have degree of hight Intermediate 3, too.
